

Bernard Edet Ekoli

FULL-STACK SOFTWARE ENGINEER

bernardedetekoli@gmail.com | +234 703 257 1478 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Full-stack software engineer with 4+ years of hands-on experience designing, building, and shipping production web applications. Strong in React, Next.js, TypeScript, Node.js, and REST APIs, with experience across databases, validation, rate limiting, deployment, and client delivery. Built and shipped SaaS and client products end to end, from architecture and UI to backend services and production deployment. Currently expanding into AI application engineering with LLM APIs and LangChain.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, NestJS, REST APIs, Zod, Firebase Admin SDK, IP rate limiting

Data: MongoDB, PostgreSQL, SQL, Firebase Firestore

AI: OpenAI API, Anthropic API, prompt engineering

DevOps: Git, GitHub, Docker, Vercel, Render, VS Code

EXPERIENCE

EkoliX Limited *Founder & Full-Stack Software Engineer* **Nov 2025 - Present**

- Founded and registered a software company, owning product development end to end from system design and implementation to deployment and product delivery.
- Designed, built, and deployed Ekmark, owning frontend, backend, API design, validation, deployment, SEO, and launch.

Freelance *Full-Stack Software Engineer* **2022 - Present** *Remote*

- Delivered a production real estate platform for a client, including property search and filtering, admin workflows, agent tools, and enquiry routing.
- Built and maintained web applications for businesses across real estate, legal, and service industries.

SELECTED PROJECTS

Ekmark | Free Image Watermarking SaaS | [Live](#) | *Live, serving real users*

- Architected and shipped a free SaaS application for batch image watermarking of up to 10 images without requiring user accounts.
- Built a public Node.js/Express API with Zod validation and IP-based rate limiting for an unauthenticated service.
- Deployed the Next.js frontend and backend separately on Vercel and Render, with sitemap, robots.txt, and Open Graph SEO setup.

Stack: Next.js, TypeScript, Tailwind CSS, Node.js, Express, Firebase Firestore

TheNigerianProperties | Property Listing Platform | [Live](#) | *Client project*

- Built and delivered a production property platform with listings, search, and advanced filtering.
- Developed an admin panel for property management and an agent dashboard for handling enquiries.
- Implemented an in-site enquiry flow that routes interested buyers' contact details directly to agents.

Stack: Next.js, React.js, Node.js, Express, MongoDB

EDUCATION & PROFESSIONAL DEVELOPMENT

Self-Taught Software Engineer **2022 - Present**

Independent study through documentation, online resources, and real-world projects, with current focus on SQL and AI application engineering.

Open to remote full-time, contract, and freelance software engineering roles worldwide.
